

## Info Sheet On Handypiece Pro

List of improvements between the Green unit launched 2008 to the Purple Unit just launched 2015

- Latest technology brushless motor resulting in continuous use with minimal heat build up.
- 1.4 kg compared to 1.7kg so better balance/lighter than standard shearing handpiece.
- Handypiece Pro is variable speed from 2400 rpm – 3500 rpm.
- When operating at crutching / dagging speed of about 2700rpm battery lasts up to 50% longer. For continuous use 240/12V inverter is available
- Auto shut off on overload or lock up, reset by turning off switch then back on.
- Handypiece Pro 1.3 Nm off torque Handypiece Green 0.3 Nm

Unofficial world record 12v clipper speed shear – David Fagan
